

5.2. ETHICS AND INTEGRITY

GRI
4.56

In its activities, the Company uses the Code of Corporate Conduct recommended for application by the Decree of the Federal Securities Commission of the Russian Federation No.421/r dated 04/04/2002 as the basic principles, standards and norms of conduct.

P. 160

GRI
4.58

In order to improve corporate culture, create an atmosphere of fairness and condemnation of theft:

- A specialized information page was created on the Company website <http://www.aem-group.ru/wps/wcm/connect/aem/site/socialresponsibility/antitheft/>;
- The media of the companies publish materials about the Program to Combat Corruption and Embezzlement in the Nuclear Industry, including information on any identified cases of theft and fraud, and contact information of the specialized Hotline;
- Information slip on using the Hotline is included among the documents for reading by new employees.
